The Accounting Option provides students with opportunities in a variety of fields, including internal audit, external audit, tax preparation and planning, and consulting. Demand for accountants has been consistently strong. The goal of the accounting option is to prepare students for a career in accounting and the qualifications to obtain certifications, such as Certified Public Accountant (CPA), Certified Management Accountant (CMA), and Certified Internal Auditor (CIA). The accounting option also prepares students to enter the Master of Science in Accounting program at UNH.

Accounting is called “the first language” of business for good reason: the fate of many products and marketing campaigns hinges on the financial officer’s final analysis. For this reason, successful accounting professionals often assume leadership roles within their companies. Most students graduating from the Paul College with an option in Accounting enter public accounting (audit and tax) for their first couple of years. After gaining experience in public accounting, many then move on to working in the accounting or finance departments of corporations.

### Transferable Skills
- Communication Skills
- Interpersonal Skills
- Problem Solving
- Forecasting & Predicting
- Analytical and Critical Thinking
- Quantitative Reasoning
- Organization Skills
- Data Analysis

### Career Areas/Job Titles
- Certified Public Accountant
- Underwriter
- Commercial Banker

- Loan Officer Administrator
- Credit Manager

### Tips for Researching and Planning an Accounting Career
- Shadow an accountant for a day.
- Attend Career Fair in the fall semester and talk to recruiters in the field.
- Get involved in a Public Accounting firms discovery or pathways program (typically after sophomore year).
- Talk with Paul College Career Counselor.
- Talk to Paul College Accounting faculty.
- Get involved with a club/organization.
- Get an Accounting internship.
- Network!

### Study Abroad Opportunities
Students are encouraged to study abroad during their time at UNH to better prepare them for a career in a globalized industry. Exploring accounting through different cultural frameworks enhances adaptability and introduces new perspectives on business operations and strategies.

Through a variety of opportunities, students are able to participate in a semester or short-term abroad experience without losing time towards graduation. The Accounting department strongly recommends meeting with academic counselors early to plan out your abroad semester and discuss course sequencing. Option courses that students may be able to satisfy abroad include ACFI 723 – Advanced Managerial Accounting; ACFI 725 – Financial Statement Analysis; and/or MGT 647 – Business Law. **Note:** All courses must be evaluated and approved prior to studying abroad.
