As the academic year comes to a close and you begin to prepare for final exams, papers and projects to successfully complete the semester, take time to reflect on all that you have accomplished this year. Whether it was declaring a major/option, deciding to study abroad, joining an organization or interviewing for internship opportunities, be proud of your achievements. Your next two years in Paul College will be exciting and challenging as you dive deeper into subject areas and it is important to take time to reflect on where you’ve been and where you’re going. Use these achievements and reflections as an inspiration to further your education and career exploration this summer. Consider taking a summer course or look for an internship and/or career related summer job to support your educational goals.

Over the next few weeks we will be meeting with students, starting with Seniors, for registration advising. Sophomore appointments are scheduled to begin on Tuesday, April 15th. You will receive a separate email regarding registration.

THINGS TO CONSIDER THIS SUMMER:

- **Take a summer course!** Registration for summer courses has begun, click here to see the course offerings. *If you have questions regarding summer courses, schedule an appointment with an advisor after April 28th.

- **Job Shadow/Network!** Both are great ways to learn about jobs and careers in Business, Economics and Hospitality Management. Family, employers and friends are great resources.

- **Get an Internship!** Check out Paul College Careers for up-to-date information and new postings and to schedule an appointment with a Paul College Career Advisor, to talk about your options.
Dive Deeper...

Become more invested in your major through research opportunities, fellowships and grants. Look into the resources below to enhance the second half of your college career.

The International Research Opportunities Program (IROP) supports qualified projects in areas such as government agencies, universities, historical sites, and research libraries. Students work with a UNH mentor to identify potential research sites and address issues of cross cultural preparation.

The Office of National Fellowships provides information, counsel, and editorial support to highly motivated students applying for national and international fellowships and scholarships. Recipients are given money to pursue their studies and research providing resources for traveling overseas or while helping to pay for undergraduate education.

The Research Presentation Grants provide funds to support travel expenses and fees for presentations at professional conferences and meetings nationwide.

The Study Abroad Research Grants enable students who are going abroad to have opportunities that allow them to research in archives, museums, government agencies, non-profit organizations, etc. to gather information and materials that will later become the foundation for a project, thesis or capstone experience once they return to campus.

The Summer Undergraduate Research Fellowships (SURF) offers a $3500 stipend for full-time summer research. Grants may support research that contribute to a senior project or thesis. There are two types of programs (SURF USA and SURF Abroad).

The Undergraduate Research Conference is hailed as the institutions premier celebration of undergraduate academic excellence. Students share the results of their discovery experiences and original work through formal presentations as well as interactive poster presentations and demonstrations.

GET A JUMP START ON JUNIOR YEAR

The second half of your college career is on the horizon! Start preparing now to get the most out of the next two years!

- Develop connections and mentorships with faculty in your declared major/option that will enhance your academic experience. Faculty are the experts in their respective fields and your resource to helping you figure out your career aspirations.
- Connect with UNH alumni to build your professional network and get advice on how to get the most out of UNH during your remaining semesters.
- Meet with a Paul College Career Advisor to discuss career paths/opportunities and get recommendations on how to boost your resume.
- Get involved on campus. It is not too late to join an organization or club.

Need Extra Help?
